

# It Takes Two

- Collaborative Exhibition -

Open Call - All mediums

**Each piece **MUST** be created  
by (at least) two artists in some way.**

Collaborative artwork for this Open Call show may take many forms. Two artists may work on one piece or may create pieces as a reaction to the other's work. Another example of a collaboration is the "Exquisite Corpse" exercise invented by Surrealist artists in the 1920's. Paper is folded in thirds and 3 artists each complete one section, but the previous artist's work is concealed as they work. Collaborations have infinite possibilities.
